

## Cavaliers of the South

12/06/13, Chattanooga, TN

Judge: Ian Sidgwick (Paulian)

I wish to thank the committee of the Cavaliers of the South for inviting me to judge and especially Earline Barrois and Nancy Maddox for looking after Pauline and me throughout our stay, and my appreciation to Brenda Gear for her excellent stewarding on the day. I would also like to thank the exhibitors for their entries and allowing me to judge their lovely dogs. I considered my principal winners all possessed what I look for in a Cavalier King Charles Spaniel i.e. a Toy Spaniel. I look for a well-balanced profile, a level topline both standing and on the move and be short coupled in body; they should be sound in construction which allows them their true free movement and possess a soft or gentle expression.

### Junior Puppy Dog (4)

**1. Darane Hellboy** (Kates) This 8 month old Ruby dog caught my eye as soon as he entered the ring, he has a level topline, a good spring of rib and he has all the signs of a good coat to come. Medium in bone throughout, he has a good turn of stifle and holds his elbows close to his body, his head is carried on a medium length of neck which is set into well laid shoulders. His skull is slightly rounded and he has ample cushioning under his large dark eyes. With dark nose pigment and long high set ears framing his face they combine to give him a soft expression. I was pleased to later award him **Best Puppy Dog, Best Puppy in Show, Best Ruby Dog.**

**2. Closeburn Spencer Stirling Stuart** (Cullen/Fairchild) A 7 month old Blenheim not as mature in the body as the first but he has a pleasing head with long high set ears and gently tapering muzzle, large dark round eyes and broad white blaze with lozenge. He has good width and depth to his chest which does not impede his straight front legs on the move. **3. Bonitos Companeros Eldorado** (Magera/Mitchell) Another nice puppy very similar to the second dog. He too has a broad head, large dark eyes with ample cushioning, again, needs to mature in body but at only 8 months it will come. Slightly straighter in the rear than the second, but it did not affect his overall movement. **4. Piccadil Once In A Lifetime** (York) This 6 month old Tricolour reminded me of my first tricolour at the same age. He is immature in the body and his head needs to break which I'm sure it will, given time. He has well-constructed front and rear quarters which allowed him to move true around the ring.

### Senior Puppy Dog (4)

**1. Darane Frodo Baggins** (Kates) This 11 month old Blenheim has a level topline and is well bodied for his age. Moderate in bone, he has straight front legs and is parallel behind which allowed him to move with drive around the ring carrying his tail level on the move. He has reasonably well broken markings, has good length to ears and has large round dark eyes. Not too deep in stop, he has dark nose pigment and a gently tapered muzzle. **2. Denham Superstorm** (Maddox) Another at 11 months old, this Ruby was presented in excellent coat and condition. He has a broad head with long high set ears, dark round eyes, is not too deep in stop and has dark nose pigment. Level in topline with good width to chest he has a good spring of rib and good rear angulation. **3. Melrose Joker For Bonitos Companeros** (Adair/Vorderstrasse/Kirschbaum) 10 month old Ruby with a happy disposition. He has dark expressive eyes set in a broad masculine head. He is well bodied with medium bone and he moved true around the ring. **4. Dreamvale Spotted Dick** (Jones/Sage) 11 month old Tricolour with pearly white markings to his collar and blanket marking to body. Level in topline he has moderate length to neck which is set into well laid shoulders and he has well angulated rear-quarters. Broad in head he has a tapered muzzle, dark round eyes, rich tan markings; he just lacked a broad white blaze.

### Graduate Puppy Dog (1)

**1. Hiddencreek Hugo Boss, JW** (Green) A 17 month old heavily marked Blenheim who stood alone. Presenting a balanced profile, he is medium boned throughout and has a good spring of rib with well laid shoulders, a good turn of stifle and correct straight front legs. He has ample width and depth to his chest, a broad head with a soft expression provided by his cushioned large dark expressive eyes. He was another who moved freely around the ring.

### Bred By Exhibitor Dog (1)

**1. Ch Brookhaven Believe It Or Not** (Ayers/Martz) What a lovely little dog this 2 year old Blenheim is. Not overdone in any quarters, he has a level topline which he held on the move. Sweeping stifles to the rear with straight front legs which allowed him to move parallel both coming and going. He has a good spring of rib and has ample coat which was straight, well broken and in excellent condition. He has high set well feathered ears which framed his large dark eyes combining with his gently tapered muzzle and dark nose pigment it gave him his soft expression. His head was carried proud on a neck of ample length which was set into a good lay of shoulders. I was pleased to later award him **Reserve Winners Dog, Best Blenheim Dog, Best American Bred Dog, Best Bred By Exhibitor Dog.**

### Junior American Bred Dog (2)

**1. Brookhaven Kid Rock At Almeara, JW** (Whitmire/Ayers/Martz) 13 month old well-bodied Blenheim with a level topline. He moved true and with drive due to his good rear angulation and his muscular hindquarters, carrying his tail level. He has adequate depth of chest and a good reach of neck which supports his broad masculine head. He has large dark round eyes which are softly cushioned and dark nose pigment and a nice wide blaze. **2. Bentwood Imagistic** (Borton) 12 month

old Blenheim who is slightly longer cast than the first and not as broad in the head. He has rich chestnut markings on a pearly white background and good length to ears. He has a broad blaze, is slightly smaller in the eye than the first, a gently tapered muzzle and is not too deep in stop. With a good depth to his chest he is moderately boned throughout and moved well.

#### **American Bred Dog (8)**

**1. Brookhaven Jesse** (Parente) This was a lovely class of quality dogs with the first two being very similar in type. I chose this 3½ year old Blenheim as he presented a lovely profile. His head held high on a good reach of neck, level in topline with a good turn of stifle. With a rich chestnut coat markings he is soundly constructed with a good spring of rib and well laid shoulders. Good width to his skull with a broad white blaze separating his large round dark eyes. With ample width to his chest he moved true with drive gently wagging his tail on the move. **2. Brookhaven Morgan At Lanmar, JW** (Hubbard) Another 3½ year old Blenheim being very similar in type and size to the winner. He too has good rear angulation and has a medium length to his coat which was not quite as richly coloured as the first. He has medium bone, a nice spring of rib, well laid shoulders and a good reach of neck. His head is broad and masculine without losing the desired soft expression. He has a broad blaze and dark round eyes and a tapered muzzle. He too moved freely keeping his tail level. **3. Oggbrae Don Ottavio** (Bales) Similar in age to 1 and 2, he is soundly constructed, with a level topline, a good spring of rib, with moderate bone throughout. Broad in head with large dark round eyes, not too broad in the muzzle, he has good depth to his chest and held his elbows close to his body. Another who moved freely and with drive. **4. Brookhaven Endless Journey** (Crane) Richly coloured 2 year old Blenheim with a good turn of stifle and a level topline. His neck of medium length is set into gently sloping shoulders. He has high set ears with broad fringing atop his broad level skull. With clean markings to his face, he has a broad blaze, dark eyes and nose pigment. He has medium bone throughout and he too moved true.

#### **Special Limit Blenheim Dog (5)**

**1. Clarmarian Covertly Wicked** (Gogol/Young-May) The first two were similar in type and size and on looking at the catalogue I see they were litter brothers. On standing he presented a balanced outline with his level topline, straight front legs set under his body, good turn of stifles and well let down hocks. Short coupled in body he has a good spring of rib. Broad in skull with high set ears he has a tapering muzzle and dark round eyes. He moved freely around the ring. **2. Clarmarian Classic By Design** (Young-May) As I said litter brother to first so he possesses similar qualities. He has a slightly longer coat than his brother but they were both presented in excellent condition. He has a broad head with a wide blaze, a moderately cushioned muzzle, dark eyes and nose pigment. He has medium in bone with well laid shoulders and good muscle to his rear allowing his true driving action. **3. Brookhaven Dante** (Ayers/Martz) A 3 year old with well broken coat of good length, medium in bone, he has dark round eyes set in a broad head with tapered muzzle and shallow stop and has good length to his ears. With ample spring of rib and medium turn of stifle, I would have liked him to have had more drive on the move. **4. Almeara Kiss The Girls** (Whitmire) Slightly more heavily marked than 1-3 this 2½ year old has a level topline and is well bodied with a good coat, both in length and condition. Medium in bone he has a broad masculine head with dark eyes, broad muzzle and is not too deep in the stop. He has a medium reach of neck with a good lay of shoulder and well angulated rear quarters.

#### **Special Limit Ruby Dog (3)**

**1. Meadowlake Licence To Kill** (Swanson) A 3½ year old who stood out in this class. He has a masculine head with a level skull, his ears are set high and frame his large round dark eyes which are nicely cushioned. His muzzle is tapered and he has a shallow stop. He has good depth and width to his chest and a good reach of neck. His body has substance and a good spring of rib. He has well angulated rear quarters which allowed him moved true holding his tail level. **2. Cambridge Ruby Dream** (Magera/Mitchell) A 5 year old smaller in type than the first. He has a level topline which he holds on the move. He has a masculine head but still retains a soft expression. Shallow in stop he has dark round eyes and a tapering muzzle with dark well developed nostrils. I would have preferred a higher ears set and for him to be more positive in his movement. **3. Sevenwoods Wildberry** (Shidler) This 4 year old is immature in body which gave the impression of him being slightly longer cast than 1 and 2. He has large dark eyes, a tapered muzzle and shallow stop. He is slightly finer in bone than 1 and 2 and he moved slightly close in the rear.

#### **Special Limit Black & Tan Dog (2)**

**1. Brookhaven Bob Bailey** (Schilling) This 5 year old presented a nice profile being short coupled in body. He has a nice spring of rib and level topline with a good turn of stifles. He has a slight wave to his profuse coat and has ample feathering where it counts. Broad in head he has large round dark eyes which are slightly cushioned and a high ear-set. His head is carried on reasonable reach of neck which is set into a good lay of shoulders. He moved true both coming and going constantly wagging his tail. **2. Elyzian Double Take** (Arnold) A 20 month old dog slightly larger in type than the first. He was presented with a straight coat which was in excellent condition and he has very rich tan markings. He too moved freely around the ring

#### **Open Dog (4)**

**1. Ch Turretbank Magic Spell** (Green/Sloan) Typifying what a toy spaniel should look like, this outstanding Black & Tan stood out as soon as he entered the ring. He presented a balanced outline and moved around the ring with style and drive

holding his head high on a good reach of neck. Well bodied with a good spring of rib and level topline he has good turn of stifles, a correct front assembly with straight front legs set well under his body and correct shoulder placement. He was presented in good coat with rich tan, a broad masculine head with high set ears, large dark round expressive eyes, dark nose pigment and he is not too deep in stop. Straight front legs with a moderate depth to his chest he has a level topline, is reasonably short coupled in body and he has a good spring of rib. Well angulated in his rear-quarters he has a good turn to his stifles and well let down hocks. Another who moved true with free driving action. *Best Tricolor Dog*

**3. Ch Melrose Gold For Bonitos Companeros, JW** (Magera/Mitchell) A 2 year old short coupled Ruby presented in good condition. He had excellent long ear feathering framing his masculine head with large dark eyes, cushioned muzzle and shallow stop. With medium depth to his chest he is straight in front with medium bone throughout and correct rear angulation allowing him to move with drive.

**4. Ch Angel's Pride Love Vegas Of Sumara** (Gentil) A heavily marked 3 year old Tricolour. He does not have the strength in the head of the others and is smaller in head and eye. He has medium bone and is well-constructed in his forequarters however I would have preferred more angulation to his rear as he lost his topline both standing and on the move.

#### **Senior Open Dog (1)**

**1. Closeburn Graham Macinnes** (Trad) Standing alone this 8½ year old Ruby shows no signs of grey which belies his age. He still has large dark sparkling eyes and dark nose pigment all set in a pleasing head with level skull with long high set ears. He has ample bone and a good spring of rib and a good turn to his stifles which allowed him to move freely.
