

Lacey Rosenberg, DVM, DACT and her team from *Veterinary Hospital at the Lake* will be available on **Saturday, December 7, 2024, from 8:30 am to 1:30 pm** for semen collection/ evaluation and cryopreservation (freezing). They will be providing limited services related to semen collection and freezing, as well as limited OFA testing.

If you are interested in services other than those listed, please contact Dr. Rosenberg and her team for information on availability and pricing. **Pre-booking is encouraged, so please reserve your spot via email at reprovhl@gmail.com OR via phone at 828-478-3500.** When calling, please reference the *COS Semen Freezing Clinic* and ask for Jenn.

Requirements include a current brucellosis test within 6 months, or a test can be run via a blood draw at the clinic for an additional fee (see below). It is strongly recommended that your dog be microchipped and have DNA on file with the AKC.

 Ask for Jenn, reference COS
